MEDITERRANEAN
PEARLS™

Foaming Cleanser
with Dissolving
Microsphere Pearls

150 ml / 5.07 fl.oz.

Inspired by the beauty and legend of the Mediterranean Pearls, a string of islands off the coast of Italy, **DMK Limited™** uses natural surfactants found in olives to create this luxurious cleanser. This mild cleansing gel is infused with vitamin B enriched microspheres with their reparative properties which easily dissolve as they gently buff your skin, loosening dead skin, dirt, and makeup. The mild foaming action then lifts the debris and easily rinses away leaving your skin feeling refreshed, soothed, and perfectly clean without feeling dry or irritated.

Key ingredients

Olive Fruit Oil

A mixture of fatty acids, salts, and potassium that act as a natural surfactant, a foaming agent and thickening agent all in one ingredient.

Cellulose Hydroxycellulose and Panthenyl Triacetate

Forms the microspheres and are a derivative of vitamin B5 with soothing and reparative properties.

Gently removes dead cells and debris in only a minute as it slowly dissolves. Never harsh or abrasive.

Xylitylglucoside, Anhydroxylitol and Xylitol

Gently lifts dirt and debris from skin for easy rinsing. Used daily it improves skin barrier organisation and protein synthesis, leaving skin clean, soft, smooth, and hydrated.

Benefits to your skin

- Non-abrasive scrub provides deep cleansing
- Vitamin B5 helps soothe and protect skin
- Helps improve the skin's barrier function
- Leaves skin feeling soft, hydrated and smooth
- Optimises water circulation with an anti-dehydraton shield

FIRMATRIX™

Skin Recovery
Serum

30 ml / 1.0 fl oz

DMK FIRMATRIX™

DMK FIRMATRIX™
SKIN RECOVERY SERUM
30 ml / 1.0 fl oz

Through the evolution of skincare, serums have been promising youth in a bottle. **FirMatrix™** is now delivering on that promise. This premium skin recovery serum contains powerful botanics that utilise **Bio-Homeostasis Technology™** to rebuild the epidermal matrix restoring up to five years of density. Greater density will bring firmness to loose or sagging skin giving you a more youthful, fuller look.

Key ingredients

Ethyl Ascorbic Acid

Purest and most bioavailable form of vitamin C. Provides fibroblast support for increased collagen, plus it helps lighten and brighten the skin.

Trifluoroacetyl-tripeptide-2 (TT2)

Assists to discourage the enzyme known to reduce cell proliferation, allowing the cells to regenerate at a more youthful pace—improving the extra cellular matrix of the skin. The result is a reduced appearance of signs associated with skin maturation through a reduction of sagging, slackness and wrinkles.

Laminaria Digitata Extract

Sourced from kelp and contains different types of sugars, proteins, amino acids and vitamins, as well as minerals and trace elements. Working with the lamina of the skin, it helps restore barrier functions to the skin. This results in reduced TEWL (trans-epidermal water loss) and increased moisture levels in the skin.

Tamarindus Indica Seed Gum

An extremely powerful antioxidant, a good source of copper, thiamin, vitamin A, folic acid, riboflavin, niacin and vitamin C.

Benefits to your skin

- Increases skin volume for fuller, younger looking skin
- Prompts collagen production for firmer, tighter looking skin
- Lightens and brightens skin for more even tone
- Improved hydration for plumper healthy feeling skin
- Creates a matrix of vitamins, minerals and antioxidants for healthier supported skin

Water is the foundation of life and **DMK Limited™** has found a way to improve the natural hydrating and nourishing benefits of water for your skin with **Wetter Than Water™**. DMK uses a unique blend of carrier and wetting agents that allow it to be delivered into the skin almost instantly. Once there, it transepidermally releases moisture and nutrients known for their volumising, anti-inflammatory, anti-oxidant, free radical scavenging and immune boosting properties.

Key ingredients

Pseudoalteromonas Ferment Extract

Improves skin hydration by retaining water. Promotes normal healthy keratinocytes, growth and fibroblast adhesion for skin regeneration and wound healing.

Hydrolysed Temella Fuciformis Sporocarp Extract

Holds water equivalent to nearly 500 times its weight. Generates a natural flexible hydration film on the skin that reinstates dry skin to its optimally hydrated state, enabling it to develop elasticity and a fit appearance.

Allantoin

Improves skin regeneration and conditions of superficially damaged skin, soothes irritated skin, reduces redness and flaking.

Amino Acids, Proteins and Nutrients

Supplied for needed cell development and to keep your skin looking healthier longer.

Benefits to your skin

- Improves skin hydration
- Improves moisture retention
- Improves elasticity
- Reduces redness
- Reduces irritation and inflammation
- Provides skin nutrients
- Promotes cell regeneration
- Leaves skin plumper, fuller and younger looking

TRANSGENESIS™

Age Management Skin Crème

50 ml / 1.7 fl oz

We may not be able to travel back in time, but we have learned how to transcend its effects on your skin. **TransGenesis™** utilises advanced ingredients to target cell renewal, firmness, elasticity and moisture retention. Specific marine sourced enzymes encourage cell turnover and renewal without irritation. Multiple peptides supported with amino acids, essential fatty acids and other nutrients encourage new collagen and overall cell health. Finally, we've added glycosaminoglycan to help restore maximum moisture levels, filaggrin modulators to lock in moisture and beta glucan to support the skin's immune function.

Key ingredients

Red Caviar Enzymes

From the cold fjords of Norway these enzymes deliver smoother, more refined texture as they gently exfoliate and renew skin cells.

Hydrolysed Glycoaminoglycans

Pulls and holds water into the surface layers of the skin, reducing fine lines and giving a plumper, fuller looking skin.

Tripeptides and Oligopeptides

Provide double the peptide action, stimulating fibroblast cells and collagen production to give you firmer, tighter skin.

Filigrin Modulators

Helps restore skin barrier functions reducing TEWL (trans-epidermal water loss) and reactive skin irritation.

Amino Acids, Essential Fatty Acids and Proteins

Supplied for cell development and to keep your skin looking healthier longer.

Benefits to your skin

- Improves firmness and elasticity
- Diminishes fine lines and wrinkles
- Reduces damage from inflammation and free radicals
- Reduces dryness and leaves skin plump and moist
- Gentle exfoliation reveals healthy, younger looking skin
- Improves immune function and protective quality of skin

Life may sometimes get you down, but there is no need to allow age and gravity to have the same effect on your neck and décolleté. **DMK Limited's™ Elevate™** crème's revitalising bio-energy ingredients and warming thermogenic effect, lift and tighten the neck and décolleté tissues in remarkably short time.

Key ingredients

Ornithine

This amino acid is used by cells as building blocks for proteins to repair and build new muscle tissue—improving skin elasticity. They have also been found to repair and build skin tissue, keeping skin tissue supple and flexible.

Methyl Glucoside Phosphate

Monitors cellular collagen and elastin. Boosts fibroblasts to increase collagen improving skins density and firmness.

Serine

This amino acid plays an important role in the body by helping to form the phospholipids (a major component of the cell membrane) that make up each cell. It also aids in DNA production, fat and fatty acid metabolism, muscle formation, and the maintenance of a healthy immune system.

Vanillyl Butyl Esther

Creates the same warming and vasodilation mechanisms as capsicum (red pepper) without the possible irritation. Helps release ATP (adenosine triphosphate) and energises nerve endings for muscle contraction and circulation.

Benefits to your skin

- Lifts and tightens sagging skin
- Stimulates muscle tightening
- Provides essential skin nutrients
- Stimulates collagen production
- Increases skin density
- Encourages healthy immune function in skin
- Assists micro circulation

DMK Limited™ A More Beautiful You, A More Beautiful World To Live In

Created by the scientific visionary Danné Montague-King, this luxurious limited product collection utilises the most advanced ingredients to address targeted skin functions. For over 40 years Danné Montague-King has created world renowned formulations and treatment concepts for the professional skin practitioner. **DMK Limited™** is the personal use evolution of **DMK Skin Revision™** which has been building confidence from the outside in for people of all races, gender and ethnicity in over 30 countries worldwide.

DMK Limited™ started with **TransGenesis™** created for Danné Montague-King's 70th birthday in 2012. That night he was awarded the first Global Ambassador status by Stuart Milk of the Harvey Milk Foundation. We at DMK take this honour seriously and back this commitment financially through the donation of a significant portion of all **DMK Limited™** product sales to the Harvey Milk Foundation. While DMK has always been committed to building confidence from the outside in, we are honoured to partner with the Harvey Milk Foundation in their mission to bring diversity and inclusiveness to the forefront of human rights and equality movements internationally.
